Google Applications
What is Google Apps?
A bridge between our organization and Google products. On one side, we have
communication and collaboration needs for our school. On the other side, there are
successful, innovative, online personal Google products. Google Apps allows us to
embrace the strengths of both sides.

Google quality, Google connectivity. Our school, our people. Powerful, easy-to-use
tools. Communicate via email, instant messaging, and voice calls. Create and share
calendar events, documents, and spreadsheets. Access it all from one place - the
Start Page.
