What should I do if my computer is stolen?

The college assumes no financial responsibility for damages to or loss of personal property. If students are not covered by their parents' personal property insurance policy, they should check with any general insurance agency for details of securing such insurance.

While the university is not responsible for lost property, you should notify campus security. You should also contact the Technology Support Center and report the MAC address to them. Your MAC address can be added to a watch list and if the device is connected to the campus network the Tech Support Center will try to locate it.
