To use the Instructor Work Stations (IWSs) in the majority of classrooms, you must first go through a training course to gain the knowledge to use the Stations properly. You may visit the site below to sign up for one of these training courses. Students, Faculty and Staff are all eligible to take these training courses. Until you have taken a training course, you will be unable to log into the Instructor Work Stations. To sign up just [register for training](https://services.fit.edu/it_faq/content/9/96/en/seminar-information-using-florida-tech_s-multimedia-classrooms.html).
