What browser settings and plugins are required for Angel?

The following are the expected requirements for Angel:

- IE v7 or Firefox v2
- Java Installed (may be picky about the version, try updating if unexpected behavior is seen)
- Javascript enabled
- Pop-up blocker set to allow https://courses.fit.edu/
- Flash Player (some content that is published through ANGEL is in Flash)

To check your browser settings or log an Angel Support request, go to the Angel Support page.
